Re: **ASTM A615 Compliance for Rebar**

CMC Steel New Jersey certifies that all steel reinforcing bar produced as A615 Grade 40 (280) sizes #3 to #6, A615 Grade 60 (420) sizes #3 to #18, A615 Grade 75 (520) sizes #3 to #18 and A615 Grade 80 (550) sizes #3 to #18, meet the requirements of the current revision of ASTM A615 Standard Specification for Deformed and Plain Carbon-Steel Bars for Concrete Reinforcement.

Specific heat, size, grade and test result information will be listed on the Certified Material Test Report (CMTR) issued to our customers for their purchased material.

Sincerely,

Joseph T. Homic
Quality Manager
CMC Steel New Jersey
